

# A ready-made household waste education program

**10 Week  
Bin Transformation**  
DROP A BIN SIZE IN JUST 10 WEEKS

The **10 Week Bin Transformation** is an **online course** to tackle waste in the home one step at a time - **saving money and the environment!**

Each week, participants are stepped through themes of **waste reduction** from packaging to organics and almost everything in between - and given **challenges** and **information** to **support** their own progress at home. And being online, people can engage **when and where suits** them!

The program includes **weekly email** and video tutorials, **kids activities**, mentoring support and an **exclusive online forum**.

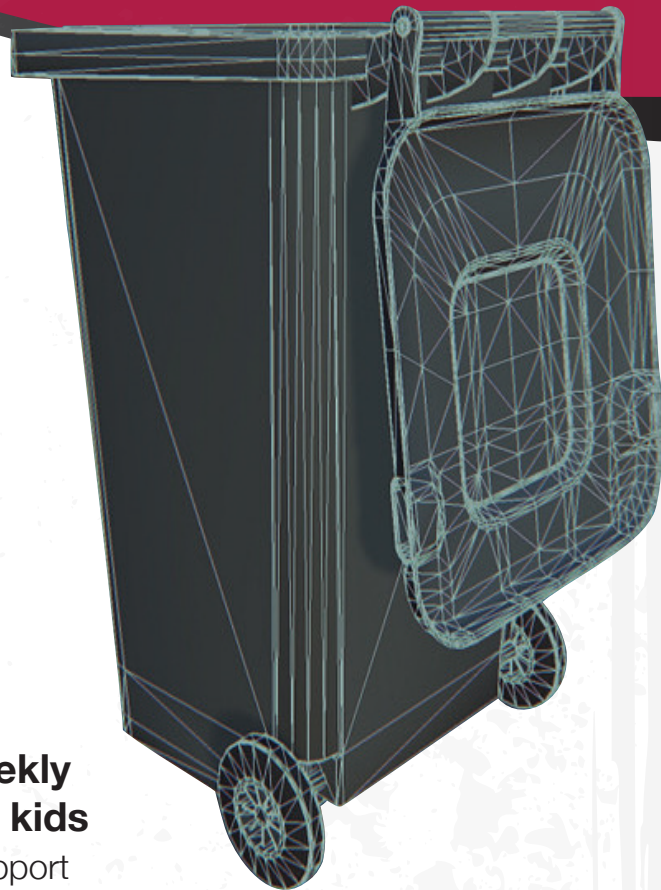

"I am aware that I still have a long way to go but feel I have come a long way and am now only putting out my landfill rubbish once a fortnight."

"It's in a format that I can return to for tips when I think things might be getting out of hand."

"It was informative, fun and very practical and results were almost instant just by making a few minor changes. It opened my eyes to lots of waste being generated that I didn't need to.  
A great initiative."

"Thanks for making this available online, really opens it up to those in more remote towns who can't get to live workshops."

**Participants report halving their waste - or better!**  
(compared to before they joined the program)

# Package Details

## Are you looking for a way to help your local residents or employees to reduce their waste output?

**Katanning Landcare** can deliver the **10 Week Bin Transformation** to your group - anywhere in Western Australia!

### What we provide:

- Logos and online material to support your promotions
- The 10 Week Bin Transformation weekly email and video tutorials
- An exclusive Facebook page, with expert mentoring
- Processing and delivery of free sample products (optional)
- Collection of data on waste reduction achievements by participants
- Low Waste Shopping Tours or other face-to-face workshops (additional fees apply – please enquire)

### What you do:

- Choose a suitable 10 week period for your area or organisation
- Attract and sign-up your participants
- Provide a local 'expert' eg Waste Education Officer to work alongside our mentor on the Facebook page, giving local support to participants
- Enjoy knowing that you're helping to cut waste!

**Contact us to tailor a package to suit **your** needs!**
